

A++ RATED INSTALLATIONS

NOW YOU CAN SELL AN A++ RATED INSTALLATION RATHER THAN JUST AN A++ RATED WINDOW

Using ISO-Chemie 'smart' foam tapes, you can insulate the joint around the window frame with an expanding impregnated foam tape to achieve a U-value as low as $0,7 \text{ W}/(\text{m}^2 \cdot \text{K})$.

Thereby creating a thermal, sound and totally weatherproof barrier around the windows or doors.

FEATURES & BENIFITS

- Quick and easy to install
- Foam expands slowly filling uneven voids between window and wall
- Thermal insulation to $0,7 \text{ W}/(\text{m}^2 \cdot \text{K})$
- Sound insulation to 44 db
- Totally weatherproof to 600 pascals - equivalent to a Force 11 storm
- Standard product, airtight to new Building Regulations, Optional vapour proof barrier makes the insulation 100% airtight
- BBA certificated and CE marked

THIS WILL ALLOW YOU TO UPSSELL AGAINST THE COMPETITION by offering an A++ rated installation rather than just a window which may be A++ rated, but leaks heat around the outer edges of the frame.
