

USE THE BLUE SEAL

A RATED ISO-BLOCO WIN2WALL

ISO
CHEMIE
Use the blue technology.

THE SOLUTION FOR THE PERFECT INSTALLATION ISO-BLOCO WIN2WALL

Why install A energy rated products with a gap around equivalent to something like D (U-value of 2.3)?

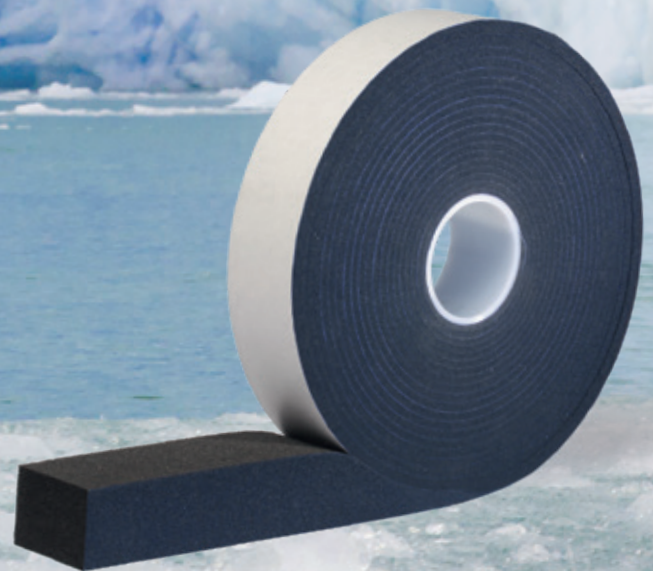

When you can have an installation equivalent that can achieve higher than A energy and sound ratings (U-value of 1.2 to 0.7 and reduction of 40 to 63 dB)?

Use the simple to apply sealing tape that will guarantee the windows are installed correctly:

A energy and sound rate installation (U-value of 1.2 to match the product installed).

PRODUCT ADVANTAGES:

- thermally suitable for UK energy rated windows
- more energy saving
- more sound reduction
- longer working life expectancy
- cleaner and better performance than silicone

SAY GOODBYE TO UNSIGHTLY & NON ENERGY EFFICIENT WINDOW INSTALLATION. SAY HELLO TO THE NEW, MODERN METHOD!
